VIA FACSIMILE

November 14, 1995

Dear Interested Party:

Re: British Columbia Hydro and Power Authority
Integrated Resource Plan and Related Appendices

On November 6, 1995 the Commission received the printed version of the British Columbia Hydro and Power Authority's ("B.C. Hydro's") Integrated Resource Plan ("IRP") and related Appendices. In order to aid the Commission in its review of the IRP, the Commission is asking interested parties to provide written submissions commenting on the IRP by December 8, 1995. These submissions should indicate the extent and nature of any concerns parties may have with the IRP or with the process through which it was developed.

In addition, the Commission is asking parties to address whether the written process established by this letter is sufficient to address any concerns that may arise with respect to the document, whether a more extensive written process is required or whether a further oral hearing would be in the public interest. Such a hearing could take place as an addendum to hearings already contemplated to occur in 1996 or could be a separate hearing.

Copies of B.C. Hydro's IRP, as well as B.C. Hydro's October 1995 DSM Evaluation Summary and Plan, may be obtained directly from the Utility.

Yours truly,

A handwritten signature in black ink, appearing to be "Constance M. Smith".
