IN THE MATTER OF the Utilities Commission Act, RSBC 1996, c. 473

and

Applications by Westcoast Gas Services Inc. for an Exemption Covering the Transportation and Processing of Natural Gas

BEFORE:

L.R. Barr, Deputy Chair

and Acting Chair

K.L. Hall, Commissioner

)

July 31, 1997

ORDER

WHEREAS:

- A. On January 31, 1997 Westcoast Gas Services Inc. ("WGSI") applied to the Commission under Section 88(3) of the Utilities Commission Act ("the Act"), for an exemption of the facilities (the "facilities") in British Columbia which it uses to transport or process natural gas for others, from Part 3 of the Act; and
- B. WGSI has entered into service contracts with several customers who it proposes to serve through the use of pipelines, gas plants and related facilities which it owns or will own, and intends to enter into additional similar contracts in the future; and
- C. The Boundary Lake Plant, which is owned by WGSI and Petro-Canada Inc., will be dealt with in a separate Commission Order; and
- D. Facilities which have been exempted from Part 3 of the Act continue to be regulated under the Act on a complaint basis, with a complaint taking the form of an application by an interested party under the Common Carrier and Common Processor sections of Part 4 of the Act; and
- E. The Commission has considered the Application and is satisfied that an Order, under Section 88(3) of the Act, exempting the WGSI transportation or processing facilities listed in Appendix I from the requirements under Part 3 of the Act, other than Sections 24 and 25, properly conserves the public interest; and
- F. On July 24, 1997 the approval of the Lieutenant Governor in Council was given to the said exemption by Order in Council No. 0832, which is attached as Appendix II; and

G. Order in Council No. 0832 provides that the approval to exempt a facility applies to a transportation or processing facility not listed in Schedule A of the Order in Council after WGSI advises the Commission in writing that WGSI will begin to use the facility to transport or process natural gas for others; and

H. Section 99 of the Act provides that the Commission may reconsider, vary or rescind an Order made by it.

NOW THEREFORE the Commission orders as follows:

1. Pursuant to Section 88(3) of the Act, the Commission approves for WGSI the exemption from Part 3, other than Sections 24 and 25, of the facilities listed in Appendix I which WGSI uses to transport or process natural gas for others, effective July 31, 1997.

2. WGSI is directed to advise the Commission in writing of any facility which is not listed in Appendix I and which WGSI intends to use to transport and process natural gas for others, so that the Commission, on finding that the exemption of such facility is in the public interest, can by Order issue a revised Appendix I.

3. WGSI is responsible for the safe and proper operation of its facilities consistent with the requirement of the Pipeline Act and other regulatory requirements.

4. WGSI is directed to file an annual report regarding each exempted facility in the form set out in Appendix III, or as the Commission may otherwise require, and to distribute copies to the shippers using the facility.

5. WGSI is directed to pay fees to the Commission in the amounts that the Commission determines are required to defray costs associated with the regulation of WGSI facilities.

DATED at the City of Vancouver, in the Province of British Columbia, this 6th day of August, 1997.
