ORDER

WHEREAS:

- A. On September 20, 2022, FortisBC Energy Inc. (FEI) filed an application with the British Columbia Utilities Commission (BCUC) for a Certificate of Public Convenience and Necessity (CPCN) pursuant to sections 45 and 46 of the *Utilities Commission Act* (UCA) for FEI's Interior Transmission System (ITS) Transmission Integrity Management Capabilities (TIMC) Project (ITS TIMC Project) (Application);
- B. The ITS TIMC Project consists of work necessary to prepare eight pipelines on the ITS for the use of in-line inspection tools. The scope of the ITS TIMC Project includes:
 - 1. Replacement of three heavy wall pipeline segments on two of the ITS pipelines; and
 - 2. Modification to 13 transmission pressure facilities within the ITS;
- C. In the Application, FEI also requests approval, pursuant to sections 59 to 61 of the UCA, to transfer the balance of the TIMC Development Cost deferral account associated with the Application, estimated to be a credit of \$0.574 million, from the existing non-rate base TIMC Development Cost deferral account to the existing rate base TIMC Development Cost deferral account; and
- D. By Order G-320-22 dated November 7, 2022, the BCUC established the regulatory timetable for the review of the Application, which included one round of information requests (IRs) to FEI from the BCUC and interveners;
- E. On January 24, 2023, the BCUC received a request from FEI to extend the established filing deadline for FEI's responses to BCUC and intervenor IRs; and
- F. The BCUC has reviewed FEI's extension request and determines that an amended regulatory timetable for the review of the Application is warranted.

NOW THEREFORE the BCUC establishes an amended regulatory timetable for the review of the Application, as set out in Appendix A to this order.

DATED at the City of Vancouver, in the Province of British Columbia, this 26th day of January 2023.
